AÉROPORTS DE MONTRÉAL CONGRATULATES BOMBARDIER**

**Montréal, September 16, 2013**— Aéroports de Montréal (ADM) joins the worldwide chorus of aviation industry observers congratulating Bombardier Aerospace for its landmark technological achievement earlier today.

“The successful maiden flight of the CSeries medium-haul jet is, quite frankly, a great moment in aviation history,” said Christiane Beaulieu, Vice-President, Public Affairs and Communications, ADM. “Beyond the technological and economic innovations on display in this new aircraft that has now reached the proving-flights stage, we’ve been able to observe first-hand that this is an extremely quiet plane, both on takeoff and landing. It truly augurs well for the future of the industry.”

**About Aéroports de Montréal**

ADM is the local airport authority responsible for the management, operation and development of Montréal–Trudeau and Montréal–Mirabel international airports under a lease signed with Transport Canada in 1992. The Corporation employs 625 people at both airports. ADM has been ISO 14001 certified since 2000 and BOMA BESt certified since 2008.
