

Surprise concert by Cœur de pirate at Montréal-Trudeau!

Montréal, November 17, 2017 – To lighten the November gloom, Aéroports de Montréal (ADM) last night gave passengers a big surprise: a free and intimate concert by singer-songwriter Cœur de pirate. For almost an hour, the Montréal artist tickled the ivories of a grand piano at Montréal-Trudeau's international jetty in front of hundreds of travelers, all of whom seemed thrilled to witness her performance!

"We are delighted to have brought this experience to our passengers who, thanks to the music of Cœur de pirate, left Montréal with a smile," said Charles Gratton, Vice President, Real Estate and Commercial Services. "This kind of initiative enables us not only to entertain our customers but also to showcase local artists. After all, art and culture are an integral part of Montréal life and an airport should reflect its city."

The concert was broadcast live on [ADM's Facebook page](#) and can be viewed anytime.
