

## NOISE BARRIER

Roxboro, mandated by Aéroports de Montréal for this project, has completed the television inspection video of the streets, sidewalks, house entrances, lands and buildings on Thorncrest Avenue.

This video will be used as a record of the existing conditions before the work only and will not be broadcast or distributed.

The next step, until the end of April, will be the construction of the temporary access road which requires heavy machinery such as trucks, excavator and steamroller. Access to the site will be on Cardinal Avenue. There will be no heavy machinery traffic on Thorncrest Avenue. The temporary road is represented by the blue line on the site map.
