

2018 holiday period: Practical tips to facilitate your airport visit

Montréal, June 20, 2018 – With passenger traffic on the rise and an increasing number of popular destinations on offer, a large number of travellers will be passing through Montréal-Trudeau to fly to one of 148 destinations. Aéroports de Montréal would like to provide some tips to ensure a pleasant and smooth visit to the airport:

Getting to the airport

- Take the time to check the condition of roads and traffic on the [road network](#) to estimate your commute time. During the summer, Montréal's road network - and access roads to the airport - will be disrupted by many construction projects.
- Check your flight [schedule](#) by visiting the ADM website or contacting your airline.

At the airport

- Arrive at the airport in advance (3 hours for international and transborder flights/2 hours for domestic flights) and go through the security screening checkpoint as soon as you have checked in.
- June marks the entry into service of new, faster primary inspection lines, known as CATSA Plus. Montréal-Trudeau has invested nearly \$8 million to implement these 12 highly efficient lines and respond to high passenger volumes.
- Reserve your priority passage through the security screening checkpoint at international and domestic departures with the free [SecurXpress](#) service.
- Pack your hand baggage (cabin baggage) in accordance with [the rules in effect](#). Non-compliant baggage increases wait times for all passengers.

Returning home

- Download the mobile [CanBorder, eDeclaration](#) app to save time at border controls. This application reduces the processing time at the terminals by 50%.
- During the 2018 summer season, passengers arriving at Montréal-Trudeau will be greeted by a reconfigured border services hall following a nearly \$9 million investment. Some 133 next-generation touch screen terminals will speed up border control processes.

Picking up passengers

- Make sure that the passengers you are coming to pick up have arrived before heading to the arrivals-level pickup zone, which is very busy during the summer.
- Are you early? Use the free CellParc parking lot where you can stay for up to 2 hours. You can access it easily by following this [guide](#).

About Aéroports de Montréal

Aéroports de Montréal is the airport authority for the Greater Montréal area responsible for the management, operation and development of Montréal-Trudeau International Airport and of the Mirabel aeronautic and industrial park. The corporation employs 625 people.
